BULLETIN No 1 – Maximum number of participants on the grid

IX. Series classification and points scoring

1. BaTCC has overall classifications per class category.
2. Every actually held round will count towards the Cup title in the class category.
3. If 31 or more participants have entered the event and passed the sporting checks in a specific category, a maximum of 30 racers will be allowed to start in the Race 1. The 30 drivers will be determined by the average best lap time of both Free Practice sessions ((FP1 best lap + FP2 best lap)/ 2). The participants outside TOP30 are first in the line to enter Race 2 if any of the participants from the initial TOP30 is unable to start in Race 2. The reserve drivers will start the Race 2 from the back of the field. **However, the Stewards of each round have the right to allow more than 30 participants on the grid. In this case the additional Bulletin must be issued.**

GOOD LUCK!
